

THE KEY TO A GOOD PARTNERSHIP

For this SDG, the focus is on countries working together to ensure that all countries can equally achieve the Sustainable Development Goals. For example, did you know that only 50% of the world has access to the internet¹ (this is mainly due to poor access in poorer countries)?

Instead of focusing on countries, think about your experience in school. It's one thing to be put in a group as a partner, but it's another thing to be a **good** partner.

In your opinion, **what is the key to being a good partner?**

(Fill the key with words, pictures and phrases that you associate with a good partner)
